

Tri – Cure SB

Resin based concrete curing compound

Description

Tri -Cure SB is a curing compound used for spraying into the surface of concrete to provide an effective and economical method of curing. And prevention of premature water loss in concrete.

Tri -Cure SB meet specific requirements of ASTM C309

Mode of Action

Tri -Cure SB forms a tough resin film on the surface of freshly placed concrete. Hydrate more efficiently, eliminates the causes of shrinkage and cracking.

Also it produces high compressive strength with a harder wearing surface to the concrete. All **Tri -Cure SB** films have a “built in” breakdown system causing the resin film to disintegrate by the action of the ultra-violet light over a period of two or three months depending on weather conditions.

Uses

Tri -Cure SB is used to :-

- Provide a resin membrane on the surface on newly placed concrete to retain moisture for effective curing to take place.
- Suitable for all general concreting applications.

Advantages

- Reduces surface shrinkage and cracking.
- Ease to Apply.
- Enables concrete to hydrate effectively.
- No waiting - apply as soon as possible after placing concrete .
- Reduces labor costs.

Technical Data @°25c

DISCRETIONS	VALUE
Appearance	Light yellow transparent.
Density	0.85 ± 0.02 kg/L
Rate of use	8 -10 m ² / L (depend on surface conditions)

Tri – Cure SB

Acrylic base Concrete Curing Compound

Directions for use

Tri -Cure SB is spray applied to the surface of the newly placed concrete , care Should be taken to ensure a complete covering .

Tri -Cure SB should be applied as soon as possible after the concrete has been surface finished , but generally within 30 - 45 minutes depending on weather condition

Cleaning

Tri -Cure SB immediately after use the spraying equipment should be cleaned out with Thinner.

Package

Tri -Cure SB is available in 5 -16 liter and 200 liter drums.

Shelf Life

1 year in suitable storage conditions in closed containers.

Storage

Store the material in a cool, covered dry place. Do not expose the pails to Direct sunlight and keep away from all sources of heat Temperature (10-30)C°.

Fire

Flammable. Do not expose to naked flames or other sources of ignition.

Health and Safety

Tri -Cure SB and white spirit should not come in contact with skin and eyes or inhalation of vapours and ensure adequate ventilation .

In case of contact with eyes rinse immediately with plenty of water and seek medical advice.
